about

Resourceful and passionate designer with proven success in digital embroidery and graphic design. Skilled at translating creative concepts into high-value, production-ready visuals — pairing a sharp eye for detail with a collaborative, problem-solving approach across print and commercial work. Currently expanding into video editing and UI/UX design to deliver across both print and digital.

knowledge sharing

PRODUCTIVITY

Microsoft Excel, MS Office Suite

certifications

DTP, CorelDRAW & Photoshop

CCI Computer Education, Tiruppur
SEPTEMBER 2019

UI/UX Designing

Coursera
JANUARY 2024

work experience

Freelance Designer — UI & Video

Independent / Freelance | 2024 – Present

- Design clean UI layouts and screens in Figma for small web and mobile projects, focusing on hierarchy, spacing, and readable typography.
- Edit short promotional and social-media videos — trims, captions, transitions, and light motion graphics — for client and personal briefs.
- Produce supporting graphics, thumbnails, and visual assets, applying core design principles consistently across digital formats.

Digital Embroidery Designer

Juleee Embrotech Pvt Ltd (SS Creation)

- Digitized custom embroidery designs in emCAD, converting artwork and client concepts into precise, stitch-ready files for production.
- Tuned stitch density, direction, and detail so designs translated cleanly from screen to fabric without puckering or thread breaks.
- Partnered with production teams throughout the run, troubleshooting on-machine issues and adjusting files to keep output on spec.
- Developed bespoke designs to each client brief, balancing creative intent with embroidery constraints and order deadlines.

Graphic Designer

AV Digital Press

- Designed layouts, invitations, and print collateral in Photoshop & CorelDRAW, taking jobs from brief to final artwork.
- Prepared press-ready files — checking colour, bleed, margins, and alignment — to reduce reprints and production errors.
- Produced commercial artwork to client specifications and turned around revisions quickly under tight print deadlines.
- Collaborated with the studio team across concurrent projects, keeping visual style consistent across each set of materials.
